

INTERCONNECTING PEOPLE AND THEIR WORLDS THROUGH SMART TECH

Ajar Technology designs, operates and delivers wherever there is critical data to process, distribute and protect. Our solution stacks include control room environments, digital display media, physical and cyber security and smart building automation. Partnering with best-in-class vendors and the end user, our solutions portfolio continues to evolve as clients transform business processes with digital technology.

OUR EXPERTISE

 Protect

 Control

 Smart

 Media

 Design

 Innovate

>33,000

Integrated CCTV cameras for the British Transport Police

6.5 MILLION

Passengers at London Heathrow per month managed by the Heathrow Airport Control Centre

>4,200

Apartments installed with smart automation

THE CHALLENGES

- Relentless drive for efficiency and enhanced customer experience
- Future-proofing
- Cyber-security
- Fragmented technology supply chains
- Connecting the business to the consumer
- Overcoming constraints from legacy systems
- Releasing data for improved decision making and communications

OUR APPROACH

- One stop tech solutions shop
- Consult with multiple stakeholders to understand each workflow process
- Create an overarching process to balance business priorities, strategy and compliances
- Develop a consolidated solution to enable multiple departments to collaborate efficiently using disparate applications
- Identify new and referenceable technologies that demonstrate complementary benefits in line with future corporate vision

OUR SERVICES

END TO END SERVICE

- Consultancy
- Pre-sales and design
- Project management
- Supply, install and training
- Maintenance and support

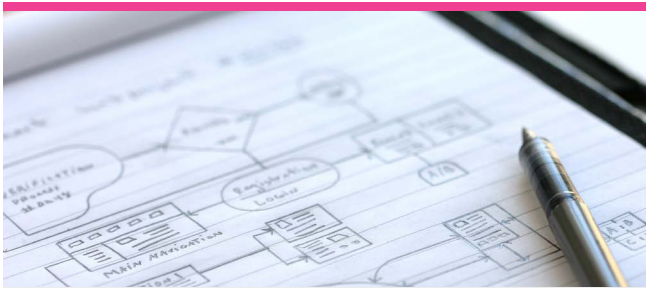

"The Heathrow Control Centre will be transformational for how we work. I'm delighted it is now operational and we are bringing everyone together like this."

JOHN HOLLAND KAYE
CEO Heathrow Airport

"Although Britain consistently punches above its weight when it comes to digital innovation and technology. In a recent OECD/McKinsey report, the UK was rated as currently operating at only 17 percent of its digital potential."

DIGITAL EUROPE

OUR SOLUTIONS

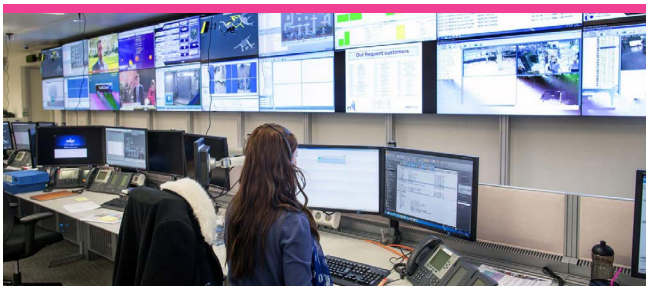

CONSULTANCY & DESIGN

- Develop your vision of the future
- Needs analysis and requirement definition
- Concept design and visualisation
- Technology consultancy
- Technology suitability reports
- Performance specification requirement
- Integrated technologies solution design
- Support services requirement

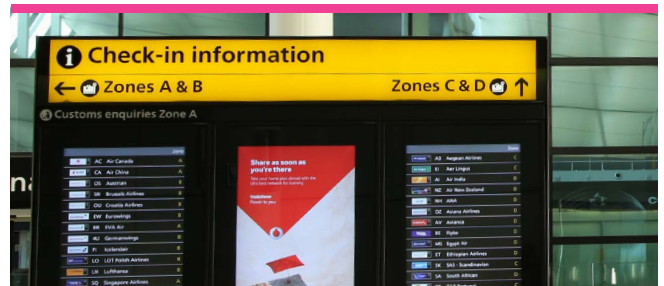

WORKPLACE TECHNOLOGY

- Collaborative working
- Real time information
- Critical operational systems
- Infrastructure resilience
- Cyber-security
- Empower the workforce
- Audit of current technology systems and development of technology refresh options

CONTROL CENTRES & SECURITY

- CCTV and access control
- Intruder alarms
- Custody suites
- Command centre/control room/crisis management
- Biometrics and analytics
- Public address
- Physical security information management
- Situational awareness

TRANSFORMATION & INNOVATION

- 3D/virtual reality/simulation
- Interactive displays
- Systems consolidation
- Artificial intelligence
- Digitise work streams
- Remote facilities management
- Managed services
- Large format displays
- Automation of processes

PROJECTS

- Large format advertising screens at London Heathrow Terminal 2 and Terminal 5
- Broadcast TV systems for London 2012 Olympic Games
- London Heathrow Airport Operations Control Centre (APOC)
- Cyber-security Control Rooms throughout HMRC
- Integration of national CCTV systems portfolio for British Transport Police
- Applied Innovation Exchange at Cap Gemini HQ London
- Tech installations of meeting rooms and boardrooms for multiple clients
- Smart Automation Systems installed in super-prime MDUs in Central London

"The quality and final finishes of the end products exceed the project team's expectation. The screens have now created a real "wow" factor for our future passengers using Heathrow. Ajar Technology has delivered its commitment and promise and we can see their continual involvement in Heathrow's future developments."

TONY CHEN

T2A Contracting Officer,
Heathrow Terminal 2
